

# Here's What I Believe

Joe McElderry

I'm tired of hanging onto all the games you play  
The lies you make, you will work that way  
You know I laid my cards right out for you to see  
But you just deal what I wanna see  
I'm gonna tell you how I go  
You're no longer in control  
Just so you know

Here's what I believe  
You've gotta be on one side or another  
It's gotta be me or the other  
That's how it's got to be  
Here's what I believe  
Good luck with your part time lover  
I know I'm gonna find me another  
Cos now I see what you believe

I'm tired of always wondering what's going on  
If it was me and I was wrong  
I opened up my heart to you, I showed my hand  
I took that risk but you had your plan  
So I'm gonna tell you how I go  
You're no longer in control  
Just so you know

Here's what I believe  
You've gotta be on one side or another  
It's gotta be me or the other  
That's how it's got to be  
Here's what I believe  
Good luck with your part time lover  
I know I'm gonna find me another  
Cos now I see

And now I know  
You're not for me  
And you and I  
Will never be  
You had your chance  
It's time to set you free

Here's what I believe  
You've gotta be on one side or another  
It's gotta be me or the other  
That's how it's going to be  
It's gotta be me or the other  
That's how it's got to be  
Here's what I believe  
I'll find another, baby  
Here's what I believe  
It's how it's got to be  
Here's what I believe  
Good luck with your part time lover  
Cos I'm gonna find me another  
Cos now I see  
Here's what I believe
