

# Better Than Beautiful

Joe Nichols

You came along  
It was perfect timing for me  
Yeah, you dropped right in the puzzle like a missing piece  
It took a while for me to understand  
You were the one I couldn't let slip through my hands

I remember when the lights came on  
A blinding sun came shining on my world  
Baby you're everything and more  
than everything I'll want  
more than I deserve  
Unthinkable, un-dreamable, unbelievable  
Better than beautiful

The only thing that compares to what we have  
is little mini me mini you running around calling me dad  
I look at her and see her mamas eyes  
I've got another reason to thank God I'm alive

I remember when the lights came on  
A blinding sun came shining on my world  
Baby you're everything and more  
than everything I'll want  
more than I deserve  
Unthinkable, undreamable, unbelievable  
Better than beautiful

I'm left with everything I'll ever need  
I've got the sweetest life a man could hope to lead

I remember when the lights came on  
A blinding sun came shining on my world  
You gave me everything and more  
than everything I'll want  
more than I deserve  
Unthinkable, un-dreamable, unbelievable  
So magical, so natural, so wonderful  
Better than beautiful  
Better than beautiful
