

Tall Boys

Joe Nichols

This town ain't even a map dot
Every stop sign's banged up with buck shot
But they show grow em real hot
Out here, ya way out here

They know how to carve up a cut off
With scissors from the mamaw
They can make those pockets tall
Just look at her looking back, look at that...

Working them short shorts
Drinking them tall boys
Popping them tabs on 24's
Gotcha buzzing like a bee on the back porch of a little love shack
Tipping that can back
Gotta all of that sun tan poured in to them real short shorts
Drinking them tall boys

Check her out digging down in an igloo
Polka dots peaking out got a good view
Put that on the YouTube
We're talking hits, a couple million hits

That girl can drive a John Deer
That girl can shuck a corn ear
That girl walking over here
Is good at showing off what she's got going on

Working them short shorts
Drinking them tall boys
Popping them tabs on 24's
Gotcha buzzing like a bee on the back porch of a little love shack
Tipping that can back
Gotta all of that sun tan poured in to them real short shorts
Drinking them tall boys
Make you wanna fall boys
Make you wanna go and buy you a farm
Just to see that sweet thing
Ain't next to nothing, strutting around in the yard
Drinking them tall boys
Rocking them short shorts
Popping them tabs on 24's
Gotcha buzzing like a bee on the back porch of a little love shack
Tipping that can back
Gotta all of that sun tan poured in to them real short shorts
Drinking them tall boys

Oughta bee against the law boys
