

Black Velvet Pants

Joe Perry

I love the way they look, i love the way they feel
Come on babe, i'm not made out of steel
Over the phone, i could stay real cool
But, face to face, i lose control
I get near you baby, i'm just a fool
Black velvet pants, i'm in it just for you
I love the way they look, the way they feel...yeah!
Now, your ?????? baby do a trick for me
I know what i like, i'm just to proud to see
You walk on by, get beat up jeans
Cause in my arms, it's a hundred and three
You drive me crazy, you make me wanna scream
Black velvet pants, cause it's the scene
I love the way they look, the way they feel...yeah!

Your black velvet pants are all i need
They make a life worth living, easy to lead
Black velvet pants, are ?????? for sure
In your hand pocket ?????? more...yeah!

I love the way they look, i love the way they feel
Come on babe, i'm not made out of steel
Over the phone, i could stay real cool
But, face to face, i lose control
I get near you baby, i'm just a fool
Black velvet pants, i'm in it just for you
I love the way they look, the way they feel...yeah!

I love the way they look
I love the way they feel
I love the way they look
I love the way they feel
I love the way they look
I love the way they feel
