

# Crossfire

Joe Perry

If ya wanna play, ya better play to win and winners never sleep  
Gonna rip this town and lay me down, play my soul to keep  
I was born, the sky's were black, and the cats they moaned all night  
Girls were crying, talk was flying, the boys got into a fight  
I was caught  
I was caught  
I was caught in the crossfire  
I was caught  
I got caught  
I was caught in the crossfire

The talk of the town is a girl named sue and that's where trouble starts

We place a show we didn't know the diamonds from the hearts  
A long time gone, the thing was going on, when suzie was just a child  
But that girl did know, mama didn't show, shotgun sheriff trial

I was caught  
I was caught  
I was caught in the crossfire  
I was caught  
I was caught  
I was caught in the crossfire

Say, hey baby don't you worry bout me  
Never went to college, got the first degree

I was caught  
I was caught  
I was caught in the crossfire  
I was caught  
I was caught  
I was caught in the crossfire

I was caught  
I was caught  
I was caught in the crossfire  
I was caught  
I was caught  
I was caught in the crossfire

I was caught  
I was caught  
I was caught in the crossfire  
Caught in the crossfire  
Caught in the crossfire  
Caught in the crossfire  
Caught  
Crossfire.
