

Crossfire

Joe Perry

If ya wanna play, ya better play to win and winners never sleep
Gonna rip this town and lay me down, play my soul to keep
I was born, the sky's were black, and the cats they moaned all night
Girls were crying, talk was flying, the boys got into a fight
I was caught
I was caught
I was caught in the crossfire
I was caught
I got caught
I was caught in the crossfire

The talk of the town is a girl named sue and that's where trouble starts

We place a show we didn't know the diamonds from the hearts
A long time gone, the thing was going on, when suzie was just a child
But that girl did know, mama didn't show, shotgun sheriff trial

I was caught
I was caught
I was caught in the crossfire
I was caught
I was caught
I was caught in the crossfire

Say, hey baby don't you worry bout me
Never went to college, got the first degree

I was caught
I was caught
I was caught in the crossfire
I was caught
I was caught
I was caught in the crossfire

I was caught
I was caught
I was caught in the crossfire
I was caught
I was caught
I was caught in the crossfire

I was caught
I was caught
I was caught in the crossfire
Caught in the crossfire
Caught in the crossfire
Caught in the crossfire
Caught
Crossfire.
