

East Coast, West Coast

Joe Perry

(charlie farren)

In the east coast, in the west coast
Trough the middle of the city
In the north shore, in the south shore
Through the middle of the commonwealth

I will be rocking, for you
I will be rolling, for you
I will be rocking and a rolling, for you

On the east side, on the west side
All around the town
In the north pole, in the south pole
All over the world, huh

I will be rocking, for you
I will be rolling, for you
I will be rocking and a rolling, for you

From the first mile, to the tenth mile
Were the rock 'n' roller city
On the right side, on the road side
All over the land

I will be rocking, for you
I will be rolling, for you
I will be rocking and a rolling, for you...ow!

From the right bank, to the left bank
With a stone that couldn't find the land
From the midland, to the outland
On the orient express.....yeah
From the gulf coast, to the gulf coast
Through the middle of the valley
At the north sky, at the south sky
Through the middle of the universe

I will be rocking, for you
I will be rolling, for you
I will be rocking and a rolling, for you....ohh
