

Ready On The Firing Line

Joe Perry

Those inhibitions y'know they numb you heart
They case your heart and make you blind.
Is how you use up all your precious time.

Chorus:

Ready on the left ready on the right
Ready on the firing line
Hide your head protect your eyes gonna have
A real good time
Ready on the left ready on the right
Ready on the firing line
Guaranteed to blow your mind

Well take my hand, child, walk with me
Take you to the place you know where the
Land holds back the sea
The feeling's right don't you run and hide
Confusion, rules we'll leave them far behind

Chorus.
