

## Just Another Old Love Song

Joe Purdy

come on in out of the cold,  
lay your cares on me,  
cause when your here there's nothing wrong  
you're as far as i can see  
you're as far as i can see  
just another old love song comin' down  
and I've been trying to make you understand  
that my love for you is real  
and I can feel it when you take my hand  
when I'm holding you near  
let me hold you near  
just another old love song comin' down  
just another old love song comin' down  
just another old love song comin' down  
so if you feel the sun is sinking down  
just call out my name  
cause i would make this whole world spin around  
just to see you again  
just to see you again  
just to see you again  
just another love song comin' down
