

I am your secret babe
Watch me unfold
Dancing in these streets so late
nobody knows
nobody knows us
The first time i looked at you
you looked at me
swimmin in this water so cool
just like a river queen
just like the river queen
and i dont remember falling asleep
must have been holding on tight
and all i can think of and i can dream
is dancing with you in red lights
sunshine state is closed
look at the water on the road
and im gonna get in my boat
and to you i will float
and to you i will float
and i dont remember falling asleep
must have been holding on tight
and all i can think of and i can dream
is dancing with you in red lights
I am your secret babe
Watch me unfold
Dancing in these streets so late
nobody knows
nobody knows us
