

Do a Little Dance

Joe

Truth for me I wouldn't mind if I spend a whole night right here next to you
Cuz I can thing anything better than having sex with you
I must confess to you, I met my best with you

And that's the truth
But lets get out of this bedroom, lets go, lets go
Lets hit the floor, baby we could come back
Now you love someone
Baby girl I promise you that you ain't got to worry
And you sure ain't gpt to hurry
Because we go all night
So lets do a little dance, lets do a little
And we can make love again (we can make love again)
So lets do a little dance, lets do a little
And we can make love again (we can make love again)
After we dance my lips all over your body
Is your preference, I know you love when all only thing you got on my finger
prints
But every now and then I love when you put on you sexy dress
And you look great and then my heart hills

But lets get out of this bedroom, lets go, lets go
Lets hit the floor, baby we could come back
Now you love someone
Baby girl I promise you that you ain't got to worry
And you sure ain't gpt to hurry
Because we go all night
So lets do a little dance, lets do a little
And we can make love again (we can make love again)
So baby lets do a little dance, lets do a little
And we can make love again (we can make love again)
After we dance

Ooh it feels so right when we step all and on
You already know that we gonna go all night
Yeah, yeah, yeah
Why we keep it, before we make love again
You know when we gonna get back from the dance floor
We gonna make love again
We ain't got to rush
We can take our time, the love gonna last

So baby lets do a little dance, lets do a little
And we can make love again
Baby lets do a little dance, lets do a little
And we can make love again, make love again
Lets do a little dance, lets do a little
Lets do a little dance, lets do a little
Don't make it pick up where we were
Lets do a little dance, lets do a little
After we dance
