

Love Undefeated

Joe

People, ooh people we got to learn to love ourselves
Look in the mirror ooh my brother
I can place the blame on no one else
And you know the
You may start and stay here right now
Gotta fight to save the children, and our generation
Breathe love on outside but cannot
What we prefer, its to for us to come together

Love undefeated always buy us I will never get without it
But look I still love, look what we made it
Love undefeated, you cross a nation of all kind
We gotta free us from the prison of our minds
All this hurting and all this crime
Lets be a brothers keep, no more wasting time

Lets stop right now, we gotta fight to save our children
And our generation
Breathe love on outside but cannot
What we prefer, its to for us to come together

Love undefeated always by your side wherever you need it
When it comes to love nothing can beat it
Love undefeated

Love undefeated always by your side wherever you need it
When it comes to love nothing can beat it
Love undefeated

We can build a brighter future
But we gotta fight, fight, a good fight
Let us live for our sons and daughter
I said we can beat em now,
We can make is now together

Love undefeated always by your side wherever you need it
When it comes to love nothing can beat it
Love undefeated

Love undefeated always by your side wherever you need it
When it comes to love nothing can beat it
Love undefeated

Its about time, then we come together
We can do it but we gotta have love
Say it again

Love undefeated always by your side wherever you need it
Feels so good, when you talk about love
Open up our hearts
You know I love
Said it feels so good, when you talk about love

We can build a brighter future
But we gotta fight, fight, a good fight
Let us live for our sons and daughter
I said we can beat em now,

We can make is now together

Love undefeated

Love undefeated I said we cant lose it if we got love

Love undefeated
