

Sanctified Girl (Can't Fight This Feeling)

Joe

Oooh
I can't fight it
No...
Sanctified, sanctified, sanctified

What is best, when I kiss your lips
I get the sweetest hangover come over me (yeah yeah)
State of bliss, with your fingertips
You get me soooo excited, how can I fight it?

Ooh I'm so into you, do what you wanna do
Sanctified girl, cause your body's got me hoping
And when your body calls
Mine always listens
Sanctified girl, cause your body's got me hoping (look down)

Lookin down on us from mirrored ceilings
I can't get enough of what this deal is
It may be wrong, but it's so appealing
Baby, baby I can't fight this feeling

When you said "It's okay to cum", I was surrendered inside
Your private place (ooh yeah)
It feels good, don't it one-on-one
So many times I will love you in so-many-waaaaays

Noooooo no, nooooo no
No no no no (I can't fight it baby)

[Repeat bridge and chorus and add lib til fade]
