

Take It to the House

Joe

Come on baby, just let me know
Let me know when we take it, take it, take it to the house
Come on baby I got to know
Can we take it, take it, take it to the house
I said girl, girl you got me going
I pop my bottles while I watch you do your thing
Ooh girl don't stop emotions
Your sexy body is so define in every way
Ooh respond something
'Cause it stays here on my mind
You drive me crazy girl you so damn fine
I love the way you move that body when you dance
Nobody can move like that in my bed
Girl I just got so come baby

Come on baby
Just let me know can we take it, take it, take it to the house
Come on baby I got to know
Can we take it, take it, take it to the house

I wont lie I got division
I see tonight and then you'll be all over me
Before resign that you've been sing all
Got me excited by the possibility

My imagination is running wild
You drive me crazy girl you so damn fine
I love it how you move that body when you dance
I want you to move like that in my bed
Girl I just gotta get you out of here somehow

Come on baby just let me know can we take it, take it, take it to the house
Just come on baby I got to know
Can we take it, take it, take it to the house

Come on baby just let me know can we take it, take it, take it to the house
Come on baby I got to know
Can we take it, take it, take it to the house
Lets go, lets go , lets go , lets go
Baby lets get the party here
