

Hopelessly Pathetic

Joel Faviere

I'm your secret weapon
You only bring me out when you forget him
My reason for prescriptions
and I can only hope that they get written
You're my Common misconception
Always teaching lessons in deception
The epitome of reckless
I was hopelessly pathetic

I was hopelessly pathetic
I hope that you don't regret it

Tell me does the world
Know the truth about this girl.
Tangled in a mess of broken promises and curls.
Even her friends see that she is a wreck.
I can never tell what the hell I should expect.
Let it flow.

I was hopelessly pathetic
I hope that you don't regret it
