

Stupid And Anxious

Joel Faviere

You talk a lot about me now.
But I stay disconnected
I really really learned my lesson.
You packed a punch that knocked me down.
You use to leave me so damn breathless.
The knock to my door, the lock to my necklace.
Just talk to me more, I don't care that I'm reckless.
My life is pathetic, should I just go, should I just end this?
Miss codependent. You made me believe that our love was endless
.
And I'm so naive to think that I'm defenseless. I'm stupid and
anxious.

Can you just shut up, let me finish a sentence.
Just let me finish a sentence.
Can you just shut up, let me finish a sentence.
Just let me finish a sentence.
I'm so god damn sick of my heart getting messed with.
I can't see shit through your broken intentions.
I hope you hurt like hell cause I'm going to heaven.
I can't see shit through your broken intentions.

I talk a lot about you now.
I talked about how I'd forget this.
and even though I learned my lesson I am down.
The only one to never sleep alone.
Is the freedom fun when you turn off your phone?
I guess I'll never know, so just take off your clothes.
We can stop at the store
and we can drink til we can't think.
So, what are you stopping me for?
Isn't this what you wanted?
Miss Codependent.
You made me believe that our love was endless.
And I'm so naive to think that I'm defenseless.
I'm stupid and anxious.
Can you just shut up, let me finish a sentence.
Just let me finish a sentence.
Can you just shut up, let me finish a sentence.
Just let me finish a sentence.
I'm so god damn sick of my heart getting messed with.
I can't see shit through your broken intentions.
I hope you hurt like hell cause I'm going to heaven.
I can't see shit through your broken intentions.
