Guess what I'm tryin to say is I'm done
We had fun, not to sound like a jerk but I won
I'm doin things the right way cause you showed me wrong
The people bump our stories when I throw it on a song
I'ma ride this thing out until the motor gone
And when the road get bumpy I'm still holdin on
'Til I'm out the project grass and gotta mow the lawn
The sky is the limit but you know Joe try and go beyond
But God forbid that don't work, I never went soft
I'm back in the hood pickin right up where we left off

This is a heads up, don't count me out dawg
If things don't go right I'm goin left like a southpaw
Back to punchin dudes in their face for tryin mouth off
Servin all the fiends that be tryin to get they couch off
Aiyyo Coke, don't forget about the kid
Might need you one day if I happen to get up out the biz
Never forgot where I came from
Where I first started to scoop my little bit of change from
(Cocaine) That's his name, son
