

## Easier

Joey McIntyre

What do you want, what are you looking for  
What do you see if you don't open up the door  
Into your heart is where I wanna be  
And girl I'm trying hard to find the key  
'Cause all I really wanna do is make it easier

And I'm not afraid  
Nothing you can say that's gonna make me walk  
away  
No matter what you do I promise you I'm gonna stay  
You need someone like me to make it easier

It's hard to let go of who you might of been before  
But if you just believe there can be so much more  
I'll help ya find who you wanna be  
If you would only put your trust in me  
'Cause all I want to do is make it easier

It don't matter what you've done before 'cause  
I'm only gonna love you more and  
Nothing else really matters too much to me

You need someone like me...

And I'm not afraid  
Nothing you can say that's gonna make me walk  
away  
No matter what you do I promise you I'm gonna stay  
You need someone like me and I need someone  
like you  
To make it easier
