Forget About It

Joey McIntyre

I'm damaged goods
I'm a broken man babe
I lost my heart
are you here to come save me
I'm falling hard
Knocked me down
with one look

You said I should know that
He hurt you so bad
You think I should know that
You don't wanna be sad
So now you don't wanna
waste your time on
love at all (no)

I'll make you forget that boy
You can make me
forget that girl
I'm willing to let her go
If you let me know tonight
That you're mine
I'll make you forget that boy
You can help me
forget that girl
I'm willing to let her go
If you let me know tonight

Lets forget about it
Just forget about it

He gave you up
what a fool that he was
Y'say no to love
You're so shut off because he
Left you there feeling scared
unprepared for what was

But.. you should know that
I've been there before
Had to pick up the pieces
up off of the floor
I wont let you feel the way
you felt with him no more

Lets forget about it
Just forget about it

We'll never know if we don't
take a chance
on another dance
(we'll never know)
Baby tonight,
I'm gonna make you.
Say its time.

Lets forget about it

Just forget about it
