I Cried

Joey McIntyre

Do you remember How we'd hold each other tight? It was all I had To get me through the night. I can't believe that you are gone. Everything right, it all went wrong. Do you remember How we kissed? You said you never felt like this. I guess I thought it'd never end. You know that you were my best friend. I cried - and I don't care who knows it. I cried - I ain't too proud to show it. I cried - when you said good bye. I wonder If you ever think of me. Or am I just another distant memory. And after all that we've been through It's just so hard To give up on you. I cried and I don't care who knows it I cried and I ain't too... I cried, I cried, I cried When you said good-bye. I cried

I cried.
