

# Rain

Joey McIntyre

I wonder how I'll get along  
I wonder where I might belong  
Losing your way is easy to do  
Wandering around without a clue

If there's a way I don't know where  
If there's a why I'm standing here  
Losing my mind is easy to do  
Where are you...

And the rain falls down  
It's the only way it gets better  
When the rain is fallin' down  
Telling me that I'm gonna make it through

I never thought of what it cost  
All of the time I might have lost  
So much to gain playing it cool  
I'm better cast playing the fool

I know I will, but when will I  
Stand up to myself, make up my mind  
I might not have, what I had before  
But I still got the rain

And the rain falls down  
It's the only way it gets better  
If the rain would fall down  
Then I know I could make it through the night

And the rain falls down  
It's the only way it gets better  
When the rain is falling down  
Telling me that I'm gonna make it through

Oh yeah, it's the only way  
Oh, ohhhhh, it's the only way  
Let it rain, let it rain down on me
