

Something Else

Joey McIntyre

Something else (you are)
Something else (I'll give ya)
Something else (you want)
Something else

Nice to meet ya
Tell me something
I don't know
Conversation
Leading to an open door
I wanna go where
no one knows
(Down and dirty)
In relation
I think the vibe
in here is right
Where ya headed
After this or is
time to say goodnight
Do you decline
(I need to know)

Baby tell me if you're into

Something else
Something else believe it
No one else
No one else gets to see it
I'll give you more than
a heart worth breaking
I give you more
but you just can't take it

Tell me would ya
Be interested in loving me
Maybe we could
Be apart of destiny
Just tell me if you wanna be
(in the joe show)
Someone told me
You're on another level
Lookin' perfect
Wait until I take ahold
and take control
Come on lets go
(get your mind right)

Baby now you're getting into

I know that this could be
Something we've never seen
Something so deep
inside ya
Baby, open up and
let me have ya

Something else (you are)

Something else (I'll give ya)
Something else (you want)
Something else
