Sitting on a mushroom
out in the woods
I say babe you make me feel good

Sitting on a mushroom
out in the woods
I say babe you make me feel good

You make me feel good
you make me tremble
you make me shake with desire
you make me tremble
you make me shake with desire
you make me tremble
you make me shake with desire
you make me tremble
you make me shake with desire

make tremble, baby make me shake x4
