

# Always On The Run

Joey Tempest

Its the way we live and its killing me  
And the silence here is deafening  
Everything is just a lie until you tell the truth  
There's got to be another day

We were always on the run  
I was always leaving you, you leaving me  
Now you never cross my mind  
Sometimes

I just know the rain won't change a thing  
I'm already lost to sugar and caffeine  
Its these days in between I never understand  
There's got to be another day

We were always on the run  
I was always leaving you, you leaving me  
Now you never cross my mind  
Sometimes

Its the way we live and its killing me  
And the silence here is deafening
