

# Don't Go Changin' On Me

Joey Tempest

If you really want to love me  
Then love who I am  
But I you only want to change me, now baby  
I'm not your man  
I might not be an angel  
Hey, we are what we are

Set love free, not how you want it to be  
Don't go changin' on me

I was looking for a lover  
When I found something true  
I figured one day or another I'd get lucky  
Meet someone like you  
Now I don't wanna lose you  
'Cause we think differently

Set love free, not how you want it to be  
Don't go changin' on me

I know I might not be a hero  
And say things you want me to  
If you look for someone perfect  
I'm afraid I just won't do  
But if we're meant to share this future  
Come happiness or pain  
If we're meant to help each other  
Thank god we're not the same

So if you really want to love me  
Then love who I am  
But if you only want to change me, now baby  
I'm not your man  
I might not be an angel  
Hey, we are what we are

Set love free, not how you want it to be  
Don't go changin' on me

Set love free, not how you want it to be  
Don't go changin' on me
