

Loved By Me

Joey Tempest

The kind of looks that never care
What they do or where they stare
The kind of looks that never hide
Will always wet your appetite
Fill my lungs with oxygen
Come and wreck my heart in style
All the looks I have returned
Now I can never close my eyes

Do you want to be loved by me
Or we can always lust
Do you want to be loved by me
Or we can always lust
Tell me do you like what you see
Or we can always lust
Do you want to be loved by me, by me

The kind of looks that never lie
If I wasn't crazy I'd lose my mind
The kind of looks go underneath
Makes a dirty mind come clean
Out of breath feeling fine
Thinking straight but I'm out of line
All the looks I have returned
Now I can never close my eyes

Do you want to be loved by me
Or we can always lust
Do you want to be loved by me
Or we can always lust
Tell me do you like what you see
Or we can always lust
Do you want to be loved by me, by me

The way you look me up
The way you look me down
