

Outside Heaven

Joey Tempest

I'm down the local universe
sometimes when I need some space
waiting outside heaven simply just to see her face
to know the beauty when she moves
you might as well explain the sky

cause I feel, just as long as you're out there
I can breathe do anything go anywhere
yes I know just as long as you're out there I try, I try

I can dream what you can see
only when I close my eyes
so high an aspiration for such an ordinary guy
to know the beauty when she moves
you might as well explain the sky

cause I feel, just as long as you're out there
I can breathe do anything go anywhere
yes I know just as long as you're out there I try, I try
