

Back In School

Johan

Wish I had your dresses
Wish I had your cool friends, so I could talk to you

I'm 25 but you're 16
I could be cool, another scene

Used to cross the streets
See people I didn't want to meet
Now I thought you had me

What I was, it's so absolute
My punk-rockfriends, I rolled and week

I wish I was back in school, just as cool as you
Back in school, just as cool as you

Your heart is not too smart just going round, breaking hearts
But your not to plain
I grow up if only I could burn my head just one more time

And I should be back in school, just as cool as you
Back in school, just as cool as you
Back in school, just as cool as you
