

## Swing

Johan

I remember everything, you were sitting on a swing  
Push you up, I pull you down, breaking up, make it up  
Everything else fades in mist  
This is all a lie, got it all in my mind  
If it's not real life, this could be a perfect lie

Followed to the other side, take off clothes and in we  
dive  
Swimming till the moon shines, right, right

Everything else fades in mist  
This is all a lie, got it all in my mind  
If it's not real life, this could be a perfect lie

See you're dress underneath the sunset  
Suits you well, you're the sunset, suits you well

If it's all fool, a big lie, you wouldn't tell me this  
part  
If it's just a silly play, you wouldn't let me get this  
far

Everything else fades in mist  
This is all a lie, got it all in my mind  
If it's not real life, this could be a perfect lie

See you're dress underneath the sunset  
Suits you well, you're the sunset, suits you well

This is all a lie, got it all in my mind  
This is not real life, this could be a perfect lie
