

Can't Get Away From You

John Anderson

You said, "Don't come around knocking on my door"
I said, "I've had enough, I won't be back no more"
But here I am, I'm back again, just like the same old fool
It's like I'm hooked, caught in a trap, can't get away from you
And ev'ry night this empty bed reminds me
I toss and turn and can't sleep the whole night through
And early in the morning always finds me with you on my mind; c
an't get away from you
Honey, please consider me and take me back again
I want your love, I need it bad, a honey let me in
And ev'ry night this empty bed reminds me
I toss and turn and can't sleep the whole night through
And early in the morning always finds me with you on my mind; c
an't get away from you.
