

# Love Might Be Just A Heart Beat Away

John Anderson

People search their whole lives through  
Looking and looking to be loved so true  
Looking so hard just dont wanna wait  
Searching and hoping for their soul mate

Its so hard to find  
And sometimes love can be blind

But we search for it night and day  
Knowin love might be just a heart beat away  
Yeah we search for it night and day  
Knowin love might be just a heart beat away

Find love but it can be hard to hold  
Suddenly things go wrong and a touch becomes cold

Want to find true love and someone to grow old  
Some day youll find true love or so im told

Its so hard to find  
And sometimes love can be blind  
But we search for it night and day  
Knowin that love might be just a heart beat away  
Yeah we search for it night and day  
Knowin love might be just a heart beat away

Just gotta work for every step you take  
Knowin you don't want another heart break  
True love will find you I believe  
Just don't wear your heart on your sleeve

Because sometimes its so hard to find  
Sometimes love can be blind  
Cause we search for it night and day  
Knowin that love might be just a heart beat away  
Yeah we search for it night and day  
Knowin that love might be just a heart beat away
