

Love Might Be Just A Heart Beat Away

John Anderson

People search their whole lives through
Looking and looking to be loved so true
Looking so hard just dont wanna wait
Searching and hoping for their soul mate

Its so hard to find
And sometimes love can be blind

But we search for it night and day
Knowin love might be just a heart beat away
Yeah we search for it night and day
Knowin love might be just a heart beat away

Find love but it can be hard to hold
Suddenly things go wrong and a touch becomes cold

Want to find true love and someone to grow old
Some day youll find true love or so im told

Its so hard to find
And sometimes love can be blind
But we search for it night and day
Knowin that love might be just a heart beat away
Yeah we search for it night and day
Knowin love might be just a heart beat away

Just gotta work for every step you take
Knowin you don't want another heart break
True love will find you I believe
Just don't wear your heart on your sleeve

Because sometimes its so hard to find
Sometimes love can be blind
Cause we search for it night and day
Knowin that love might be just a heart beat away
Yeah we search for it night and day
Knowin that love might be just a heart beat away
