

Nashville Tears

John Anderson

Bit it came a town and a cadillac to lot
With a song and he was born to sing
But is now we got a closer to the backstage of the opry
In a little writley part way burger king

Johny is the jealous of real blue collar board
Is written songs whatever star and tell
And no ones after listen no ones but ever low
Ten years a past and he still hanging out

Nashville tears keep wedding up inside
It come down like falling rain across the years
That don't come her the river so deep at so wide
Is nothing more nothing less a Nashville tears

If we lost her bill before she sign the papers
Now she did in the house six more is tour
Theres he only songs she sing is to the lord in sightment
And a lonely little room with cover walls

Here was it the superstar when he was young the best
The now hes out the side it out the line
Hes got a one way ticket if it wont be it the brance
It headin down the comber head tonight

That don't come her the river so deep at so wide
Is nothing more nothing less a Nashville tears
