

# Who Got Our Love

John Anderson

Who got our love  
I want to know  
Who's having fun  
In places we used to go

Who stole your heart  
I want it back  
I'm tired of livin'  
Without love in this old shack

I'm tellin' you babe  
I've had enough  
Without your kisses honey  
It gets too rough

Who got our love

Who got the love  
That I need so much  
And who's feelin' all the pleasures  
Of your touch  
Who found the key  
To open up your door  
Who got the love  
I'm lookin' for

Who got our love  
I want it now  
Maybe we could get it back together somehow  
Who stole the flame  
That burns so bright  
It used to keep me warm  
On the cold cold night

I'm tellin' you babe I've had enough  
Without your kisses honey it's just too rough  
Who got our love

Who got the love  
That I need so much  
And who's feelin' all the pleasures  
Of your touch  
Who found the key  
To open up your door  
who got the love  
I'm lookin' for

Who got our love
