Boardwalk Angel

John Cafferty & the Beaver Brown Band

Little girl, tonight baby don't be blue Dig those pretty lights along the avenue You're out there on your own Spending all your time alone So come on girl, tonight I want to be with you

The world has let you down and it broke your heart But tonight's the night for a brand new start We'll leave the world behind We'll go walking on down the line Come on girl, let's make our dream come true

Meet me out on the boardwalk tonight Meet me down by the sea We can dance in the carnival lights On the shores of Jersey We'll fall in love on a carousel Little boardwalk angel

Boardwalk angel, boardwalk angel Boardwalk angel I want you to stay by me You're my boardwalk angel
