

(Keep My Love) Alive

John Cafferty & the Beaver Brown Band

Out beyond that blue horizon
Lies the yet untold tales of our lives
Where the river runs wild and deep
And the mountains kiss the sky

The highest mountain I will climb
And I will survive
Cause you keep my love alive
Yea yea yea
You keep my love alive

A man must find his own reason
To lead his way out of the dark
And I'm searching for some lost key
To unlock these chains from my heart

Into the open fire I'll ride
And I will survive
Cause you keep my love alive
All you gotta do
Is just keep my love alive

Somewhere along the way
I slipped into the shadows of doubt
Now as I stand at these crossroads
I know I've come too far to turn back now

Into the open fire I'll ride
And I will survive
Cause you keep my love alive
All you gotta do
Is just keep my love alive

All you gotta do
Is just keep my love alive
Yea yea yea
You keep my love alive

Into the open fire I'll ride
And I will survive
Cause you keep my love alive
