

Small Town Girl

John Cafferty & the Beaver Brown Band

I work the late shift
At my daddy's shop
I see some money
But I'm losing some heart

And every evening
When that whistle blows
I had it no good
I want to just keep going

This girl
She lives ways cross town
She wants somebody
She can settle down

I been living in
This town too long
I packed my bags and
Got me out that door

This small town girl's got me crazy
I'm falling for a small town girl
She's all that matters
In this whole wide world
Cause I'm falling for
This small town girl

She wants the kind of
Things her mama seen
A little home to
Raise a family

She wears my ring out
And I don't know why
Cause I'll be here
Until the day I die

This small town girl's got me crazy
I'm falling for a small town girl
She's all that matters
In this whole wide world
Cause I'm falling for
This small town girl
(2x)

This small town girl's got me crazy
I'm falling for a small town girl
This small town girl's got me crazy
I'm falling for a small town girl

This small town girl's got me crazy
I'm falling for a small town girl
This small town girl's got me crazy
I'm falling for a small town girl

This small town girl's got me crazy
I'm falling for a small town girl
