John Cale

Cleo, cleo, won't you come around and play girl  
Cleo, cleo, won't you come around and stay girl

You can find the lines to say, if you try  
Someone else has just confessed  
To drinking up all your wine.

Cleo, cleo, there's a way for you to find out  
How you should say, what you think is the way out  
Will you, won't you, will you see me through  
Maybe you could help me find a thing or two about you.

Cleo, cleo, now's the time for you to tell me  
If you, want to, you can leave it up to me girl  
After you have told me what you wanna do  
I could tell you, that I loved you, if I thought that it would  
be true.

Cleo, cleo, oh cleo I want you, me oh my.  
Oh cleo I want you, me oh my.
