

Dancing Undercover

John Cale

Driving out on Ponchatrain Louisiana mud
Cleaning off the insects to get a little light
You're confined to Dallas and I think you're right
To find other solutions maybe not but I might
I might be looking at trouble again fighting above my
weight
But when things look so easy you want to be careful in
case
Close as I am to you I'm closer to Gila Bend
I'll call you in the morning and tell you where to send
The last thing we talked about after you had left that
message on my party line
That you were miles ahead
To set you up instead
But I might be looking at trouble again fighting above
my weight
But when things look so easy you want to be careful in
case
Dancing Undercover of a Mariachi moon
When the clouds passed over us
We'll be out of here soon
Thanks for thinking of me and thanks for the flowers
Deadly nightshade is beautiful I could stare at them
for hours
I crossed the border this morning you come across
tonight
You lost the map of Mexico that wasn't very bright
I could be looking at trouble again fighting above my
weight
But when things look so easy you want to be careful in
case
Dancing Undercover of a Mariachi moon
When the clouds passed over us
Dancing dancing dancing
We'll be out of here soon
