

## Dancing Undercover

John Cale

Driving out on Ponchatrain Louisiana mud  
Cleaning off the insects to get a little light  
You're confined to Dallas and I think you're right  
To find other solutions maybe not but I might  
I might be looking at trouble again fighting above my  
weight  
But when things look so easy you want to be careful in  
case  
Close as I am to you I'm closer to Gila Bend  
I'll call you in the morning and tell you where to send  
The last thing we talked about after you had left that  
message on my party line  
That you were miles ahead  
To set you up instead  
But I might be looking at trouble again fighting above  
my weight  
But when things look so easy you want to be careful in  
case  
Dancing Undercover of a Mariachi moon  
When the clouds passed over us  
We'll be out of here soon  
Thanks for thinking of me and thanks for the flowers  
Deadly nightshade is beautiful I could stare at them  
for hours  
I crossed the border this morning you come across  
tonight  
You lost the map of Mexico that wasn't very bright  
I could be looking at trouble again fighting above my  
weight  
But when things look so easy you want to be careful in  
case  
Dancing Undercover of a Mariachi moon  
When the clouds passed over us  
Dancing dancing dancing  
We'll be out of here soon
