

Living with You

John Cale

I've got four walls and a roof
Gonna put the roof on top
I've got glass for the windows
We'll have windows to look thru

'Cause this is living
This is living with you
'Cause this is living
This is living with you

I've got a sea in my front
And a mountain in my back
Eveytone thinks it's no fun
But they couldn't be more wrong
And I know

This is living
This is living
With you

You wanna be living
You wanna be living like me with you
