

Outta the Bag

John Cale

Letting the cat outta the bag
you're gonna find a good home
Letting the cat outta the bag
You can't always have it your way
Letting the cat outta the bag
I know it wasn't what you wanted to hear
You got yours I got mine, you gotta be careful
Look what what happens when you smile
It's an object lesson
Nothing ever works the same way twice
You've seen it all before
Everytime I see you coming around
I can't stop you anymore
Letting the cat outta the bag
you can't always have it your way
Gonna be here, everytime the dogs bark
Gonna be here, when you call my name
Gonna be here when the night time comes
OOOH HOO HOO cat's outta the bag
The birdies sing
