

# Things

John Cale

Elsewhere in the temple the llamas are gearing up  
To assault tiger mountain when the sun comes up

Deconstructing Hollywood into the sand  
Putting it back together with a rubber band  
Legendary failures of the silver screen  
Mimicking the software they end up in

Doing it -(doing the things)  
Doing it -(doing the things)  
Things you do in Denver when you're dead

A month is a saturday wednesday is a week  
I saw the way you nlooked at her Charlie Brown good  
grief  
She pulled you into shadows and taught you how to love  
Patted you on the head and gave you a gentle shove

The sexual exuberance of a concubine checking my  
carburettor one more time  
With the passion of a thoroughbred and the sensitivity  
of a moose you  
Rarely make a move unless you find some proof that i've  
been doing it  
We sat around whispering in the candlelight  
Missing the essentials of a game plan for the night  
Learning about the difference between north and south  
Keep your gun in yr pocket and your tongue in yr mouth

extra verse:

You live in Paris  
I live in France  
Things are expensive when you live 1st class  
I learnt latin  
You learnt greek  
When you've got a minute  
We'll meet in Crete
