Anything Love Can Buy

John Denver

I'll buy you the glow of an evening star A song of the winds that cry Promise you more than all you can dream Anything love can buy

I'll give you the gold at the rainbow's end The clouds of a summer sky Tell me your wish, and so it shall be Anything love can buy

A silver brook flowing down to the sea Daffodils kissed by the sun These are the treasures fortune gave me Money I have none

Come walk by my side and hold my hand
We'll build our castles high
I'll give you the whole wide world on a string
Anything love can buy
Anything love can buy
