

Easy, on Easy Street

John Denver

My way was the hard way
Didn't know it at the time
I could've made it by now
But I 'as too busy tryin'
Your way was too easy
Thank God you came along
You took me to a special place
Where nothing can go wrong

Easy, on easy street
You're the one who gave me love
That made my love complete
Easy, on easy street
The dream I pictured in my mind
Could never be this sweet
Everything I'll ever need
Is here with you on easy street

I know you're up to something
What's on your little heart
It really doesn't matter, 'cause
I know I'll love my part

Easy, on easy street
You're the one who gave me love
That made my love complete
Easy, on easy street
The dream I pictured in my mind
Could never be this sweet
Everything I'll ever need
Is here with you on easy street

Is here with you on easy street
The dream I pictured in my mind
Could never be this sweet
Everything I'll ever need
Is here with you on easy street
