Fly Away

John Denver

All of her days have gone soft and cloudy
All of her dreams have gone dry
All of her nights have gone sad and shady
She's getting ready to fly

Fly Away , fly away, fly away

Life in the city can make you crazy
For sounds of the sand and the sea
G   Gsus4   I love the sea
Life in a high rise can make you hungry
For things that you cant even see

Fly Away , fly away], fly away
In this whole world there's nobody as lonely as she
                                    nobody as lonely me
There's nowhere to go and there's nowhere
That she'd rather be
      I'd rather be

She's looking for lovers and children playing
She's looking for signs of the spring
G   Gsus4   Where is the spring
She listens for laughter and sounds of dancing
She listens for any old things

Fly Away , fly away, fly away, fly away
Where are my days Where are my nights
Where is the spring I want to fly
I want to fly fade out
