Never a Doubt

John Denver

There was never a doubt, never a doubt in my mind We weren't meant to be lonely Never a doubt I knew that I'd find you some day There was never a doubt, after all of those nights alone All those desperate mornings Never a doubt, there was never a doubt in my mind I suppose there have been times when you felt like a room fille d with darkness Not a window around There must have been moments you felt you were truly alone Then again each of us knows, in a night of unbearable sadness Still a light can be found In each morning the promise that someday your true love will co me I suppose there are some people who never believe in the magic Oh the magic of love They think nothing is precious and life is just pleasure and pa in Then again each of us knows, when a heart has been broken it's tragic Oh the magic of love Even that which is broken with love can be mended again All the things that you fear, at the most they mean nothing All the sorrow and sadness can just disappear There was never a doubt, never a doubt in my mind We weren't meant to be lonely Never a doubt I knew that I'd find you some day There was never a doubt, after all of those nights alone All those desperate mornings Never a doubt, there was never a doubt in my mind There was never a doubt in my mind Never a doubt in my mind
