

## Spirit

John Denver

His spirit joined and so was formed  
Ten thousand years ago  
Between the swan and Hercules  
Where even dark clouds glow

To live with grace, to ride the swell  
To yet be strong of will  
To love the wind, to learn it's song  
And empty space to fill

Apollo taught me to rhyme  
Orpheus taught me to play  
Andromeda cast down her sign  
And Vega lights my way

Smoke rings in a galaxy  
An endless flight through time  
Lyra gave her harp to him  
And left him free to climb

A winter's journey from the moon  
To reach the summer sun  
To rise again, to sing for you  
A song that's yet unsung

Apollo taught me to rhyme  
Orpheus taught me to play  
Andromeda cast down her sign  
And vega lights my way

His spirit joined and so was formed  
Ten thousand years ago  
Between the swan and Hercules  
Where even dark clouds glow

To live with grace, to ride the swell  
To yet be strong of will  
To love the wind, to learn her song  
And empty space to fill
