

# Till You Opened My Eyes

John Denver

Down, down, down deeper into love  
All around, I can feel your love  
All my life I've been dreaming  
Night into morning  
Till you opened my eyes

Love, love, love such a mystery  
Golden light shining down on me  
Soft and warm as the warming  
But I never saw it  
Till you opened my eyes

Floating in circles, I'm flying  
It feels so good that I'm crying

Down, down, down deep inside of me  
Love sweet love's all that I can see  
Golden light keeps on shining  
Shining forever, since you opened my eyes
