

# What's on Your Mind

John Denver

You know sometimes I can't get to sleep at night  
I can't quiet my heart or my mind  
I toss and turn, I ache and burn  
I get caught in the passing of time

It's like too many miles, too many heartaches  
Too much that needs to be done  
Yes and too many sidewalks, too many people  
Too many hours done

What's on your mind  
What's on my mind  
Is really quite the same  
I've been working so hard  
And I'm ready to play  
I know just the right game

What's on your mind  
Is what's on my mind  
That's the way it's gonna be  
I'm gonna find me a place I can hide  
I want you right next to me

On I've never seen a more beautiful day  
It's my favorite time of year  
The colors are changing, she's rearranging  
And I'm so glad to be here

I've been up and around, I've been lost, I've been found  
I've seen love face to face in my dreams  
And the things that I know and the things that I show  
Are not always just what they seem

What's on your mind  
Is what's on my mind  
It's just that way  
It's like catching a ride  
On a beautiful river  
Let it carry us all away

What's on your mind  
And what's on my mind  
Is really nothing new  
I want to get you alone  
I want to make you my own  
Baby, I want to make love with you

What's on your mind  
And what's on my mind  
Is really quite the same  
I've been working so hard  
And I'm ready to play  
Baby, I know just the right game

What's on your mind  
And what's on my mind  
Is really nothing new

I want to get you alone  
I want to make you my own  
Baby, I want to make love with you
